## Ardax's industrial touch monitors equipped with the latest USB-C technology deliver flexibility and versatility with just a single cable, making them ideal for diverse professional applications.

## HIGHLIGHTS

## - Built-in Scaler

Ardax USB-C touch monitors are engineered with a highend scaler chip to ensure vibrant and intense colors are
 embedded SCALER reproduced on the screen.
Users would also have controls over contrast adjustment, resolution upscaling, gamma correction, six color component adjustment, color saturation adjustment, backlight controls, and so forth.

## Unclutter Your Workspace

Ardax USB-C touch monitors support Alternative Mode, which eliminates cable cluttering and helps to deliver a clearer and cleaner working space.

## Compatibility

Ardax monitors are tested and finetuned to ensure compatibility with a wide range of industrial PC brands and models, providing the best user experience.

## Alternate Mode

Ardax enables USB-C Alternate Mode capable of delivering video, audio data, and power over a single cable, bringing much-needed versatility and convenience to professional users.

## DC-in I/O

Customers can use an external power adapter as alternative power input for source devices that do not provide 12V DC power delivery or have limited output current.

## Peripheral Connection

For added convenience, Ardax USB-C touch monitors come with a USB2.0 I/O for connecting peripherals such as a scanner, printer, keyboard, mouse, or other USB devices.

Monitor I/O Ports

Technical Specs.

| Series |  | 10.1" | 15" | 15.6" |
